DREER'S QUARTERLY Wholesale Price List

April-June, 1895.

BULBS.

Prices on Bulbs have not yet been definitely fixed, but will be slightly higher than last year. The French growers report a shortage on Roman Hyacinths due to the severe cold weather of last winter.

We are quoted prices for the present on White Roman Hyacinths, which enable us to offer as follows on advance orders:

11 to 11½ cent.	4¼ in., \$18.00 per 1000.
12 " 15 "	4¾ " 25.00 "
13 " 15 "	5¼ " 28.00 "

Should prices be lower when the crops are harvested, we will give buyer's the benefit of the reduction and will guarantee to supply choice bulbs at as low a price as they can be purchased.

LOW EXPRESS RATES ON PLANTS.

We are shipping by all express lines to any part of the country, plants packed in closed boxes at a reduction of 20 per cent. from regular rates of merchandise. Boxes weighing less than 100 pounds are charged at pound rates, minimum charge not less than 35 cents. For example: where the general rate is \$5.00 per 100 pounds, a box weighing 20 pounds will be carried for 80 cents. Prepaid 4 pound packages of seeds, plants and bulbs are carried to California and all distant points for 30 cents each.

Specialties in Vegetable Seeds.

Early Eclipse Beet.

Of rapid growth, small top and fine quality, as early as the Egyptian, but larger and of better quality, skin and flesh intense red.

Lb. 50 cts.; 10 lbs. \$4.50; bus. \$8.00.

Early Egyptian Turnip Beet.

A standard sort and one of the earliest in cultivation, color rich deep crimson, excellent both for sowing in the open ground and for forcing. From the smallness of the tops at least one-fourth more can be grown on the same space than any other variety.

Lb. 40 cts.; 10 lbs. \$3.50.

Bastian's Extra Early Blood Turnip Beet.

The perfection of a Beet for the market gardener and family use; very early, of quick, large growth, fine turnip form and bright red color, a good forcing variety. Lb. 40 cts.; per bus. \$5.00.

Lentz's Extra Early Turnip Beet.

A popular variety with the market gardeners. About as early as the Egyptian, producing a crop in six weeks from the time of planting. In size and shape it is similar to the Bastian.

Lb. 50 cts.; per bus. \$6.00.

Bastian's Half Long Beet.

A valuable second crop variety of excellent quality, color bright red. A good keeper and one of the best fall and winter beets.

Lb. 40 cts.; per bus. \$5.00.

Edmand's Early Blood Turnip.

An excellent early variety, flesh dark red and white, sweet and of good flavor.

$\frac{1}{4}$ lb. 15 cts.; lb. 40 cts.; 10 lbs. \$3.50.

Dreer's Bush Lima Bean.

This valuable dwarf variety of our Improved Lima Pole Bean is increasing in popularity as it becomes more widely known. It is a true bush Lima, growing from 1 $\frac{1}{2}$ to 2 feet high and producing pods in great abundance. The beans grow close together as shown in our illustration, producing three or four, and sometimes five beans in a pod. The beans are short and thick, similar to the Dreer's Improved Pole Lima, and are equal in tenderness and quality to that choice variety, which is regarded as the sweetest and most desirable sort for cooking and table use. Quart 40 cts.; peck \$2.75; bus. \$9.00.

COPYRIGHTED 1893 BY
H. DREER.

Improved Early Round Pod Red Valentine Bean.

The earliest of the green snap short beans and the best and most popular variety for market gardeners.

Qt. 20 cts.; peck \$1.00; bus. \$3.75.

Extra Early Refugee Bean.

An early round-podded green bean ripening a few days later than Improved Red Valentine; very desirable for market.

Qt. 25 cts.; peck \$1.10. bus. \$4.00.

Improved Rust-proof Golden Wax Bean.

The standard variety for general use; pods long, nearly straight, broad, flat, golden yellow, fleshy and wax-like; of the highest quality.

Qt. 25 cts.; peck \$1.25; bus. \$4.50.

Early Refugee Wax.

A perfect Refugee with wax pods that are long, round and of a golden yellow color. It is one of the earliest and an immense yielder.

Qt. 25 cts.; peck \$1.65; bus. \$6.00.

Wardwell's Kidney Wax.

One of the very best Wax Beans, bearing long pods, of a delicate wavy yellow, entirely stringless and brittle, of fine buttery flavor and a fine yielder.

Qt. 25 cts. peck \$1.25; bus. \$4.75.

Currie's Rust Proof Wax Bean.

This new variety is claimed to be absolutely rust proof; pods long, flat, tender and of fine quality. It is early, productive and a good all round bean, ripens about with the Kidney Wax; color of dry beans, bluish black.

Qt. 25 cts.; peck \$1.40; bus. \$5.00.

Grenell's Improved Golden Wax Bean.

Early, prolific, pods nearly straight and flat, not so long as the well known Golden Wax and not turning to a golden wax color quite so young, but bears in greater profusion.

Qt. 25 cts.; peck \$1.25; bus. \$4.50.

Keeney's Rustless Golden Wax Bean.

A strong-growing bush variety of remarkable vigor and freedom from rust. It sends out short tendrils on which pods are formed in addition to those near the central stalk of the plant, which accounts for its wonderful productiveness, amounting, under favorable conditions, to 100 to 150 fold.

The pods are meaty and well filled, thick, flat when young, and semi-round later; of rich yellow color and fine quality, and entirely stringless even when large enough to shell. If the pods are picked as fast as formed, the plant continues to furnish a bountiful supply for an unusually long season.

Pkt. 15 cts.; 4 pkts. 50 cts.

Improved Prolific Black Wax.

This is a great improvement on the old Black Wax; pods when fit for use are waxy yellow, very tender, delicious and productive.

Qt. 25 cts.; peck \$1.40; bus. \$5.00.

Yosemite Mammoth Wax.

A giant among beans. The pods, frequently reaching from 8 to 10 inches, are of great thickness and solidity. They are of a rich golden yellow color, and absolutely stringless, cooking tender and delicious. Quart 40 cts.; peck \$2.25; bus. \$8.00.

Golden Champion Wax Pole Bean.

This proved to be the earliest in our trial grounds last year and certainly is one of the best of the wax podded pole beans; pods are long, cylindrical, much curved, very fleshy, stringless, bright golden yellow color, borne in clusters, usually prolific and of excellent quality. Pkt. 10 cts.; pint 25 cts.; qt. 40 cts.

Thorburn's Valentine Wax Bean.

This is an improved Extra Early Valentine Bean, with round wax pods, which originated with a well known cultivator of Jefferson county, N. Y. It is without exception the earliest Wax Bean, being even earlier than Refugee Wax. The pods are very meaty, and with so very little string that they may justly be called stringless. It is the best quality for snap beans of any Wax Bean in use. It is remarkably free from rust.

Pkt. 20 cts.; pint 70 cts., qt. \$1.25.

THORBURN'S VALENTINE WAX BEAN.

DREER'S SELECTED EARLY JERSEY WAKEFIELD.

CABBAGE.

Our Cabbage Seed is all saved from choice selected stock.

Early Jersey Wakefield.

The leading market gardener's variety and the best for early use. Extra fine selected stock.

Oz. 25 cts.; $\frac{1}{4}$ lb. 75 cts.; per lb. \$2.50.

The Charleston or Large Jersey Wakefield.

An extra selected sort, producing large solid heads of good quality. It is a few days later, but larger than Early Jersey Wakefield.

Oz. 25 cts.; $\frac{1}{4}$ lb. 75 cts.; per lb. \$2.50.

Dreer's Early Drumhead.

We offer a superior strain of this valuable second early variety. It matures about ten days later than the Wakefield. Broad round heads, quality best, very fine grained, tender and of excellent flavor.

Oz. 20 cts.; $\frac{1}{4}$ lb. 60 cts.; per lb. \$2.00.

Henderson's Early Summer.

A valuable second early variety, coming in about ten days after the Jersey Wakefield, but double the size of that variety.

Oz. 20 cts.; $\frac{1}{4}$ lb. 60 cts.; per lb. \$2.00.

Succession.

A second early round-headed sort, heads very evenly and comes in a few days after Early Jersey Wakefield. In all respects a desirable sort.

Oz. 20 cts.; $\frac{1}{4}$ lb. 60 cts.; per lb. \$2.00.

All Seasons.

An early Drumhead Cabbage, yielding heads of good size. Very desirable, either for extreme early spring or fall use. A true sure-header.

Oz. 20 cts.; $\frac{1}{4}$ lb. 60 cts.; per lb. \$2.00.

All Head.

The largest heading of the second early sorts, of excellent quality.

Oz. 20 cts.; $\frac{1}{4}$ lb. 60 cts.; per lb. \$2.00.

CAULIFLOWER.

Dreer's Earliest Snow Storm.

The earliest and best of all for forcing or open ground culture. It is a dwarf, with short outer leaves, and can be planted two feet apart each way; always sure to make large fine heads earlier than any other, and is the market gardener's favorite.

Pkt. 25 cts.; oz. \$5.00; per $\frac{1}{4}$ lb. \$18 00.

Dreer's Selected Dwarf Erfurt.

Dwarf and compact, can be planted 18 inches apart each way. The heads are large, close, pure white, and of the finest quality.

Pkt. 20 cts.; oz. \$2.50; per $\frac{1}{4}$ lb. \$9.00.

CARROT.

Danver's Half-Long.

A most excellent variety, either for field or garden culture, broad-shouldered symmetrical roots of a rich orange color, smooth and handsome. It is a great yielder and a valuable market variety.

Oz. 10 cts.; $\frac{1}{4}$ lb. 20 cts.; per lb. 70 cts.

Nichol's Imp. Long Orange.

A greatly improved strain of the Long Orange Carrot, being earlier, smoother in skin, without any side rootlets, richer in color and of uniform texture throughout. Oz. 10 cts.; $\frac{1}{4}$ lb. 25 cts.; per lb. 75 cts.

Improved Short White.

A new and distinct variety which will doubtless take first rank as a field carrot by reason of its great productiveness and its growing well out of the ground, making it comparatively easy to harvest. The roots are half-long and of good shape, as shown in the cut; light green above ground, white below, flesh white, rich, solid and of excellent flavor.

Oz. 10 cts.; $\frac{1}{4}$ lb. 20 cts.; lb. 75 cts.

Sweet Corn, White Cob Cory.

A new and improved variety of the Cory Corn with uniformly *white cobs*. It is as early as the ordinary Cory, with ears fully as large and well filled, and will be preferred by many who object to the red cob sorts. Qt. 20 cts.; peck \$1.00; bus. \$3.50.

DANVER'S HALF-LONG.

NICHOLS' IMPROVED LONG ORANGE.

CELERY.

Golden Self-Blanching.

This valuable Celery is without doubt the best for early market use. Growers having found it very profitable, are using it largely in preference to other sorts. It is of fine dwarf form, rapid growth, rich golden yellow color, of superior flavor and excellent keeping quality.

Oz. 30 cts.; $\frac{1}{4}$ lb. 80 cts.; lb. \$3.00.

White Plume.

We offer a choice selected strain of this valuable and popular variety. The White Plume is unsurpassed for fall and early winter use, requiring very little earthing up to blanch it.

Oz. 25 cts.; $\frac{1}{4}$ lb. 75 cts.; lb. \$2.50.

Voutier's Selected Golden Heart

This is a choice strain from the Golden Heart, selected by the well-known and successful market gardener, Chas. Voutier. The stalks are very large and full, quality of the best;

Oz. 25 cts.; $\frac{1}{4}$ lb. 75 cts.; lb. \$2.50.

Giant Pascal.

A superior keeping sort. The stalks are very large, thick, solid, crisp, and of rich nutty flavor, it blanches very easily and quickly, and retains its freshness a long time. Oz. 20 cts.; $\frac{1}{4}$ lb. 50 cts.; lb. \$1.75.

Perfection Heartwell.

This is one of the very best varieties in cultivation, stalks long and thick, very compact, crisp and of fine flavor. Oz. 20 cts.; $\frac{1}{4}$ lb. 60 cts.; lb. \$2.00.

CUCUMBER.

Bennett's Improved Early White Spine.

This favorite market variety, largely used for forcing and extensively grown South for shipping North early in the season; of medium to large size, deep green, crisp, fine flavor, and very productive.

Oz. 10 cts.; $\frac{1}{4}$ lb. 25 cts.; per lb. 70 cts.

Arlington White Spine.

A strain of White Spine which has been improved through careful selection, with a view to use for forcing in hot-houses and frames. Our stock produces handsome, dark colored fruits, which retain their color longer than other sorts.

Oz. 20 cts.; $\frac{1}{4}$ lb. 40 cts.; per lb. \$1.50.

Thorburn's Everbearing.

The merit of this variety is that the vines continue to flower and produce fruit in every stage of growth until killed by frost. It is of small size, very early, and enormously productive.

Oz. 10 cts.; $\frac{1}{4}$ lb. 20 cts.; lb. 60 cts.

EGG-PLANT.

New York Improved Large Purple. The leading market variety; large, round, dark purple, free of thorns, excellent and the most productive variety.

Oz. 30 cts.; $\frac{1}{4}$ lb. \$1.00; lb. \$3.50.

SILVER BALL.

Lettuce.

Boston Market. (*White Seeded*). Hardy and crisp; the earliest heading variety; one of the best for forcing. Oz. 15 cts.; $\frac{1}{4}$ lb. 35 cts.; lb. \$1.00.

Hittinger's Belmont Forcing. An improvement on the Boston Market, larger in size, with well formed heads of remarkably crisp and tender quality. Oz. 15 cts.; $\frac{1}{4}$ lb. 40 cts.; lb. \$1.50.

Black Seeded Tennisball. A favorite forcing variety. Forms a close, hard head; with few outer leaves. Oz. 15 cts.; $\frac{1}{4}$ lb. 35 cts.; lb. \$1.00.

Early Dutch Butter, Spotted. Producing fine large heads of excellent quality, and one of the best forcing and market sorts; also stands the heat well in the summer. Oz. 15 cts.; $\frac{1}{4}$ lb. 40 cts.; lb. \$1.50.

Philadelphia Cabbage, or White Butter. A favorite for sowing in the fall; nearly hardy, requires only a slight protection; produces fine, well-formed heads. Oz. 15 cts.; $\frac{1}{4}$ lb. 35 cts.; lb. \$1.00.

Silver Ball. This is one of the best all the year round lettuce we know of. It is an excellent variety, as well for early spring and summer use as for winter forcing. Oz. 15 cts.; $\frac{1}{4}$ lb. 40 cts.; lb. \$1.50.

ONIONS.

Philadelphia White or Silver Skin. The leading variety of White Onion, extensively grown for pickling, very early and mild flavored, it produces fine onions from seed. Oz. 25 cts.; $\frac{1}{4}$ lb. 75 cts.; lb. \$2.25; 5 lbs. \$10.00.

Philadelphia Yellow Strasburg or Dutch. This variety is largely grown for sets. It is a good keeper and well flavored, bright straw colored skin. Oz. 15 cts.; $\frac{1}{4}$ lb. 50 cts.; lb. \$1.40; 5 lbs. \$6.25.

Philadelphia Yellow Globe Danvers. This is the standard yellow Onion of our markets. A large globe-shaped onion, of mild flavor and attractive color. It is a good keeper and very productive. Oz. 15 cts.; $\frac{1}{4}$ lb. 50 cts.; lb. \$1.40; 5 lbs. \$6.25.

Southport Yellow Globe. A very large handsome, globular shaped, yellow variety, very productive, of mild flavor, excellent keeper. Oz. 15 cts.; $\frac{1}{4}$ lb. 50 cts.; lb. \$1.40.

Southport White Globe. Pure white color, mild flavor, and equally as good for keeping as the yellow sort. Oz. 25 cts.; $\frac{1}{4}$ lb. 75 cts.; lb. \$2.25.

Southport Red Globe. Similar in shape and size to the Southport Yellow Globe, but ripens somewhat later. It is a splendid keeper, and in quality is superior to most other red varieties. Oz. 15 cts.; $\frac{1}{4}$ lb. 50 cts.; lb. \$1.50.

Large Red Wethersfield. A leading variety in the Eastern States; it grows to full size the first season from seed, almost round, large size, deep red color, and keeps well. Oz. 15 cts.; $\frac{1}{4}$ lb. 50 cts.; lb. \$1.50.

Prize Taker. This is the large pale yellow Onion that is offered for sale in the fruit stores and markets in the fall. It grows to a very large size, often 12 to 14 inches in circumference; flesh white, of mild and delicate flavor. Oz. 20 cts.; $\frac{1}{4}$ lb. 60 cts.; lb. \$2.00.

PEAS.

Dreer's Eureka Extra Early. The earliest and most productive pea. We have repeatedly tested our claim for its earliness on our trial grounds, in comparison with other leading early varieties. It has never been less than four, and frequently more than ten days earlier. In habit, quality, purity and productiveness, it is the most desirable sort. For the market gardener they lack no important feature. It grows twenty inches high, and free from runners. The crop can be gathered in two pickings. Qt. 20 cts.; pk. \$1.00; bus. \$4.00.

American Wonder. The earliest wrinkled variety in cultivation; in productiveness, flavor and quality, it is unsurpassed. Qt. 35 cts.; peck, \$1.75; bus. \$6.00.

Extra Early Premium Gem. A fine flavored dwarf, wrinkled variety, an improvement on the Little Gem; pods long, dark green and prolific. Qt. 25 cts.; peck, \$1.25; bus. \$4.75.

Little Gem. A dwarf first early, green-wrinkled marrow, very prolific, and of superior flavor. Qt. 25 cts.; peck, \$1.25; bus. \$4.50.

Advancer. A fine early market variety, prolific, well-filled long pods, tender and of delicious flavor. Qt. 25 cts.; peck, \$1.00; bus. \$4.00.

Heroine. A medium early green wrinkled pea, and one of the best of recent introduction; large, recurved, showy pods; an immense cropper; peas of finest quality; height 2 to 2 $\frac{1}{2}$ ft. Qt. 30 cts.; peck \$1.60; bus. \$6.00.

SELECTED WHITE BOX RADISH.

RADISH.

Cardinal Globe.

This is the very best forcing variety and is sown largely by market gardeners and truckers. It is of globular shape and brilliant cardinal red color, short top, and will stand a large amount of heat without becoming pithy. Oz. 5 cts.; $\frac{1}{4}$ lb. 20 cts.; lb. 75 cts.

Dreer's Scarlet Frame.

One of the earliest and best of the Turnip varieties for forcing; very short leaved; small top, color of skin dark red, white-fleshed, with very small tap root. Oz. 5 cts.; $\frac{1}{4}$ lb. 20 cts.; lb. 75 cts.

White-Tipped Scarlet Gem.

A new and excellent variety for forcing, with very short leaves, bright scarlet, with a clearly defined white tip, giving it a very attractive appearance when bunched for market. It is a quick grower, tender and crisp. Oz. 10 cts.; $\frac{1}{4}$ lb. 25 cts.; lb. 75 cts.

Zitter's Selected White Box Radish.

A perfectly round, white variety, free from any sharpness or bitterness, and the quickest of the white sorts. Oz. 10 cts.; $\frac{1}{4}$ lb. 25 cts.; lb. 75 cts.

Philadelphia Half Long Scarlet Short Top.

A great improvement on the old Long Scarlet, being earlier and more desirable. Oz. 5 cts.; $\frac{1}{4}$ lb. 20 cts.; lb. 60 cts.

Parsley, Half Curled.

This variety is largely grown by the market gardeners. The plant is of dwarf habit, with dark green leaves, fine cut and beautifully curled. Oz. 10 cts.; $\frac{1}{4}$ lb. 20 cts.; lb. 60 cts.

TOMATO.

The Stone. Fruit very large, bright scarlet, very smooth, ripening evenly to the stem without a crack; exceedingly solid and firm fleshed. One of the best. Selected seed. Oz. 20 c.; $\frac{1}{4}$ lb. 60 c.; lb. \$2.

Acme. One of the best for family use; ripens evenly, of medium uniform size, round, very solid, of a pinkish color. Oz. 15 c.; $\frac{1}{4}$ lb. 50 c.; lb. \$1.50.

Atlantic Prize, or Early Ruby. An extra early and very productive variety, valuable to market growers. Oz. 20 cts.; $\frac{1}{4}$ lb. 60 cts.; lb. \$2.00.

Beauty. Rich glossy crimson with a slight purple tinge; grows in clusters of 4 to 5; is of large size, very smooth and solid. Oz. 15 cts.; $\frac{1}{4}$ lb. 50 cts.; lb. \$1.75.

Favorite. One of the largest and most perfect-shaped varieties, ripens evenly and early; very prolific, good flavor, flesh solid. Oz. 15 cts.; $\frac{1}{4}$ lb. 50 cts.; lb. \$1.75.

Perfection. Larger than Acme, fully as early, perfectly smooth, solid, almost round, deep red in color. Oz. 15 cts.; $\frac{1}{4}$ lb. 50 cts.; lb. \$1.75.

Paragon. A fine early variety and a heavy bearer, fruit of large size, solid and smooth as an apple. Oz. 20 cts.; $\frac{1}{4}$ lb. 60 cts.; lb. \$2.00.

Lorillard. A splendid sort for forcing under glass as well as for out-door culture; bright glossy red, smooth, and very early. Oz. 20 cts.; $\frac{1}{4}$ lb. 60 cts.

Long Keeper. Of medium size and shapely form, remarkably solid and a long keeper; of a deep pink color. Oz. 20 cts.; $\frac{1}{4}$ lb. 60 cts.; lb. \$2.00.

Dwarf Champion. An early and distinct variety, coming rapidly to maturity; medium in size; plant of dwarf and compact growth. Oz. 22 cts.; $\frac{1}{4}$ lb. 60 cts.; lb. \$2.00.

Horsford's Prelude. Bright crimson, round, smooth; growing in clusters; first class sort to grow under glass or out of doors; very early. Oz. 25 cts.; $\frac{1}{4}$ lb. 75 cts.; lb. \$2.50.

Ignotum. Excellent for family or market use; very prolific; the earliest of the large, deep red, smooth varieties, heavy and solid. Oz. 20 cts.; $\frac{1}{4}$ lb. 60 cts.; lb. \$2.00.

FLOWER SEEDS.

We give close attention to the Flower Seed department of our business, which is probably the largest in quantity and variety in this country.

Our constant aim is to procure the very best strains obtainable, both of home and foreign growth, and we spare no pains or expense with this object in view. We call especial attention to our choice strains of Asters, Cineraria, Calceolaria, Gloxinia, Pansy, Petunia, Primula and Verbena, which are acknowledged by leading growers to be superior in all respects. Our trade packets contain a liberal supply; where smaller quantities are wanted, buyers can select from retail catalogue at a discount of one-third, excepting Novelties, on which we can allow only 25 per cent.

IMPROVED PEONY FLOWERED ASTER.

VICK'S BRANCHING ASTER.

DREER'S SUPERB ASTERS.

We regret to report again this year a shortage in crops of flower seeds, due to the unfavorable weather of last summer. This is notably the case with Asters and Nasturtiums, the foreign crop of Aster seed being almost a complete failure, so much so that we are only able to offer in limited quantities of most varieties.

We have been fortunate in securing a good supply of home grown seed of the branching Asters, Vick's White and Semple's Pink and White, which are being largely used by florists.

Pure White Asters.

Vick's Branching White Aster.

This new variety will prove of value to the flower trade. The flowers are pure white, of good size, borne on long stems with broad, long petals. It continues to grow and bloom later in the season than other varieties. Trade pkt. 30 cts.; ¼ oz. 75 cts.; oz. \$2.50.

Semple's Branching Asters.

A choice strain of American grown Asters which have been brought by careful selection to a high degree of excellence. The plants are of branching habit, producing on long stems flowers of perfect form, from 4 to 6 inches in diameter. Pink and White mixed. Trade pkt. 30 cts.; ¼ oz. 75 cts.; oz. \$2.50.

Mignon, Pure White. This beautiful variety is one of the finest for cutting; it resembles the Victoria in form and habit, but is smaller and more free-flowering. Trade pkt. 50 cts.; ¼ oz. \$1.50; oz. \$6.00.

Dwarf White Queen. A beautiful new class of large-flowering Asters of dwarf habit; bearing profusely full double imbricated flowers of great beauty. Trade pkt. 50 cts.; ¼ oz. \$1.00; oz. \$4.00.

Queen of the Market.

This class is characterized by extreme earliness, producing flowers in great profusion on long stalks fully three weeks earlier than other Asters.

CASSIA CHAMÆCRISTA.

PARTRIDGE SENSITIVE PEA.

This is one of our native annuals which has been strangely neglected in view of its beauty and interesting qualities. The plant, raised from the seed, grows from 12 to 18 inches in height, with compound leaves, each having from 8 to 12 pairs of leaflets, which, like those of Mimosa pudica, are sensitive to touch, drooping and folding together. The flowers are large, an inch and a quarter in diameter, of a canary yellow, two of the petals being purple spotted at the base. They are borne on stems from two to five in a cluster and are produced freely until destroyed by frost. Trade pkt. 25 cts.; per oz. \$2.00; retail pkts. 10 cts. each; per 100 \$6.00.

Marguerite Carnations.

This beautiful new race of Carnation has attracted great interest, and claimed the admiration of all who have grown it since its introduction. Its rapid develop-

ment, flowering as it does four months after sowing the seed, its profusion of bloom, variety of beautiful colors and delicious perfume will insure its popularity in all gardens where cut flowers are in demand.

New Dwarf French Cannas.

We are headquarters for seeds of the French Canna, which we grow in large quantities on our own grounds. Seeds sown now will produce saleable plants this coming Spring.

Plants for Florists.

NEW
DWARF ALLAMANDA.

Allamanda Williamsii.

This handsome variety is entirely distinct from all others, being quite dwarf and in no way resembling a climber, but forming a compact bush with trusses of bloom at every point, and having from two to four expanded blooms on each extremity at the same time and buds innumerable. It continues flowering the whole summer, and, with proper management, in the winter also. The flowers are from $3\frac{1}{2}$ to $4\frac{1}{2}$ inches in diameter, of a very rich yet delicate tint of yellow, and are deliciously scented. Good young plants, 35 cents each.

Achillea Serrata Plena.

(The Pearl.)

A decided improvement over the old double white Achillea, and most useful plant for summer cut flowers; flowers pure white, perfectly hardy.

Field grown clumps \$1.25 per dozen, \$10.00 per 100; $2\frac{1}{2}$ inch pots. \$4.00 per 100.

Akebia Quinata.

One of the most hardy climbing plants, bearing in early spring a profusion of fragrant, violet brown flowers.

Anemone Japonica.

One of the most desirable, hardy herbaceous plants. As a cut flower we consider the Anemone invaluable. Alba. Pure white, with yellow centre and dark eye. Very free bloomer.

Rosea. Dark rose, shaded pink, yellow centre, dark eye. Strong plants, 3 inch pots, \$1.00 per doz.; \$8.00 per 100.

Anemone Whirlwind.

A new semi-double form of Anemone Japonica Alba which is supposed to be a cross between this beautiful variety and a Japonica Rosea. In general style and habit it is identical with the white Anemone. It is of the same strong habit of growth, and is even more free-flowing than the original type. The flowers, which are $2\frac{1}{2}$ to 3 inches across, have several rows of pure white sepals, and the advantages of lasting much longer than the single varieties.

Strong pot grown plants from four inch pots, \$1 00 per doz.; \$8.00 per \$100.

Acalypha Macafeana.

This plant is certain to become popular when its fine bedding qualities become better known. It is especially valuable for use in connection with Crotons and other foliage plants.

We have a large stock in 2½ inch pots at 75 cts. per doz.; \$6.00 per 100. 3 inch pots, \$1.00 per doz.; \$8.00 per 100.

Araucaria Cookii.

We offer a pair of beautiful perfect specimens 40 inches high, 5 tiers, at \$15.00 each.

Araucaria Joseph Napoleon Bauman.

We offer a pair of this rare variety, 18 inches high, with three tiers, at \$10.00 each.

Asparagus Plumosus Nanus.

We offer a grand stock of this popular and useful plant. This stock must not be confounded with old divided clumps offered at very low prices; all are seedling plants and are as much superior to divided clumps as a seedling smilax is to an old divided stool. 2½ inch pots, \$1.00 per doz.; \$8.00 per 100; \$70.00 per 1000. 3 inch pots, \$1.25 per doz.; \$10.00 per 100; \$90.00 per 1,000.

Aspidistra Lurida.

(Green Leaved.)

We have a fine stock of this useful decorative plant in 5 and 6 inch pots with from 5 to 15 leaves, at \$5.00 per 100 leaves.

Azalea Hardy Ghent.

Fine bushy plants, 18 to 24 inches high, finely set with buds, at \$6.00 per doz.; \$45.00 per 100.

Bougainvillea Glabra Sanderiana.

A new variety of Bougainvillea and a plant that we feel certain will become very popular as a pot plant. We give the introducer's description: "It affords us great pleasure to offer this new and by far the most

useful flowering plant known. We have grown this new Bougainvillea in a greenhouse, where it has continued flowering for seven months, small and large plants alike being covered with blossoms. Even plants in thumb-pots were laden with bloom. The house in which our plants have been cultivated has been a sheet of flowers from May until December, and even up to the first of the year the plants were carrying thousands of their brilliant blossoms. Many excellent judges state that this will be a favorite market plant, as it produces as freely as a Fuchsia its dazzling *rosy crimson flowers*, lasting so long in perfect condition, and produced in amazing profusion. We can with all confidence recommend this grand plant as a great acquisition."

2 1/4 inch pots 25 cents each ; \$2.50 per dozen.

Aquilegia Coerulea.

The True Blue Long Spurred Rocky Mountain Columbine.

We have been unable to offer the true variety of this handsome Columbine for over fifteen years, all of the available stock known to us having become more or less crossed with the ordinary forms. What we now offer has been grown from seed collected in its natural habitat, and we are assured of its genuineness.

We offer good plants in 3 inch pots \$1.00 per dozen ; \$8.00 per 100.
ARUNDO DONAX VARIEGATA. We have a fine stock of this variegated grass, strong pieces \$2.00 per dozen ; \$15.00 per \$100.

Arundo Donax. The green leaved form of the above. Beautiful effects can be produced with this variety. It attains a height of 15 to 18 feet in rich soil where it is freely supplied with water.
 Strong pieces \$1.00 per dozen ; \$8.00 per 100.

NEW ANEMONE, Lady Ardilaun.

This is unquestionably one of the finest novelties in hardy plants that has been introduced in many years. It is a variety of the old hardy White Anemone Japonica, but entirely distinct in foliage and growth, producing flowers much larger, with broader petals and of a wax-like substance, overlapping almost to the points, thus forming a most symmetrical flower. It has two or more rows of petals like the old Japonica, but of purest white, and is certain to become very popular. 2 1/4 inch pots, \$2.00 per dozen ; \$15.00 per 100.

Import Orders for Azaleas.

We are now booking orders for fall delivery. Buyers who use a quantity of this most popular Easter blooming plant, will find it to their interest to place their orders for next season's wants early, thereby securing the choice of the stock at lowest cost for transportation, as the plants can be forwarded with perfect safety during October, by fast freight, even to the most distant points.

The varieties we supply are only the most popular roots suited to the American market. We give personal attention to the selection of these stocks abroad, and can guarantee satisfaction. We offer well budded plants with bushy crowns.

Crowns, 10 to 12 inches in diameter, \$35.00 per 100.
 " 12 to 15 " " 65.00 per 100.
 Specimens, 18 to 24 inches in diameter, \$30.00 per dozen.

AZALEA INDICA.

SINGLE AND DOUBLE TUBEROUS-ROOTED BEGONIAS.

TUBEROUS-ROOTED BEGONIAS.

The strain of Tuberous-Rooted Begonias we offer is too well known to require lengthy description, suffice it to say that we have used the same care with this as in the previous seasons, to select only such varieties as are adapted to our climate and certain to give satisfactory results. The bulbs are of good size, well ripened and first-class in every respect.

Note the reduction in price, which is as low as is consistent with good quality; the retail florist who is growing a few hundred bulbs for his spring trade, to sell over the counter in bloom, will find many of the cheap indifferent strains now offered dear at any price. We offer but one quality, and that is the best.

SINGLE VARIETIES, mixed, all colors.

Per dozen, 60 cents; per 100, \$3.50; per 1000, \$30.00.

Three Fine New Yellow Carnations.

ELDORADO.

A yellow, of free blooming habit, strong vigorous plant, erect stems, finely formed flower, of fair size, very free. Petals edged with a narrow band of light pink, almost a Picotee in marking. The flower retains its yellow color under artificial light unlike most yellow varieties; very easy to root.

2½ inch pots, \$2.00 per doz.; \$15.00 per 100.

KITTY CLOVER.

A prolific, continuous bloomer, light yellow, striped lightly with red and white, finely formed perfect fringed flowers.

2½ inch pots, \$1.50 per doz.; \$12.00 per 100.

EULALIA.

Light yellow, handsomely penciled with light pink. Petals deeply fringed.

2½ inch pots, \$1.50 per doz.; \$10.00 per 100.

New Crimson Carnation—Dr. Warder.

A rich shade of crimson, rather darker towards the edge of petals, which are deeply fringed. Plant of dwarf habit, but throwing up long stiff flower stems; very compact in growth and suitable for low benches.

2½ inch pots, \$1.50 per doz.; \$10.00 per 100.

Three New Fancy Carnations.

DAISY BELL.

White variegated, same class as Chester Pride. Flowers very much larger and blooms much earlier than the latter variety.

2½ inch pots, \$1.50 per doz.; \$10.00 per \$100.

HELEN KELLER.

Introduced last season; a large flower of fine form; white, penciled with scarlet, stout erect stems and a free bloomer; does not burst its calyx. The flowers always command a high price and are in great demand.

2½ inch pots, \$1.00 per doz.; \$6.00 per 100.

PRINCESS BONNIE.

A cross of McKinsie and Cæsar. Light pink ground prettily marked and penciled with a darker shade, a very pleasing variety.

2½ inch pots, \$1.50 per doz.; \$10.00 per 100.

New Striped Carnation, Hawaii.

A pretty fancy variety; ground color white, laced and striped with carmine, entirely different from anything sent out before. The plant is a strong, vigorous grower, and a most profuse bloomer.

2½ inch pots, ready now, 75 cts. per dozen; \$5.00 per 100.

New Carnations

LOIS C. HAETTEL.

NEW WHITE CARNATION,

Lois C. Haettel.

A white variety that was introduced by us last season in a limited way. It is of California origin, and one of the most prolific and continuous bloomers yet introduced. The cut gives a good idea of the actual size and shape of the flower. The petals are very heavily fringed, giving it a peculiar lace-like appearance. The habit of the plant is all that could be desired, while in fragrance it excels any variety now on the market.

We give below a few of the many testimonials sent us in reference to this fine white carnation.

Mr. William Scott of Buffalo, N. Y., writes us: "I find Lois C. Haettel a good grower in an exceptionally dry season, an early bloomer with medium sized flowers, pure white in color, of perfect form and a free bloomer."

F. Goldring & Co., S. Singerlands, Albany, New York, say: "We consider Lois C. Haettel Carnations to be our best white, and intend growing it largely next season. In our soil—a rich sandy loam—this variety makes a fine sturdy growth, producing its flowers very freely on long stiff stems, and best of all it is a good seller. We would strongly commend it to those needing a good all round white carnation."

2½ inch pots, ready now, 75 cts. per dozen; \$4.00 per 100.

COPYRIGHTED BY ABLANC 1893.

HAWAII.

Ophelia and Sweetbrier.

Two Fine Pink Carnations.

OPHELIA—(Edward Swayne.)

Large pink, rather darker than Scott. Winner of Craig cup for best seedling at Philadelphia, spring of '93. 2½ inch pots, \$2.00 per doz.; \$15.00 per 100.

SWEETBRIER.

Winner of first premium for "best seedling of any color" at Philadelphia, November 7, 1893. An exquisite shade of light pink (between Wilder and Daybreak); a strong grower; an early, very free continuous bloomer; fragrant, good size, long stiff stems.

2½ inch pots, \$1.00 per doz.; \$6.00 per 100.

New Large Flowering Dwarf French Cannas.

The Most Desirable Bedding Plant for the American Garden.

We again offer this season a set of novelties which show a great advance and which we feel sure will be appreciated. In making up the various sets of Cannas here offered it has been our aim to select only the very best and finest types, and to present a list from which our customers can select any one variety with the certainty of it being a plant worthy of a place in any garden.

In the novelties offered for the first time this season we imported all that came to our notice, and after thoroughly testing them we have selected seven varieties which we consider the cream of this year's introduction, discarding all others, many of which were purchased at high prices.

New Gilt-Edged German Canna, "Queen Charlotte."

We offered this grand variety in a limited quantity last season at a high price; it is of German origin and will no doubt be the most popular of the new varieties this season, and is considered by many who saw the different varieties of this gilt-edged type in flower on our grounds the past summer to be the finest of this class yet introduced. The plant attains a height of about three feet and is furnished with heavy bluish-green foliage; the enormous flower spikes, towering grandly above the foliage, bear a beautiful bouquet of large flowers of perfect form, petals of a velvety grenade blood red, broadly banded with bright canary yellow.

50 cents each.

QUEEN CHARLOTTE.

New Gilt-Edged French Canna, "Souvenir de Antoine Crozy."

This is a perfect gem and in our estimation the finest gilt-edged variety yet introduced; the flowers are large, with well rounded petals, which are of the most intense scarlet crimson, rich and dazzling, and are bordered with a broad rich golden yellow border, and does not fade or scorch in the most intense hot and dry weather, which proves to be the fault with some of the very high-colored varieties, notably Paul Sigrist, a variety that we thought highly of last spring, but which failed badly the past dry summer, while Souv. de Antoine Crozy and Queen Charlotte retained their rich colors planted side by side with this variety and under precisely the same conditions. In habit the plant is all that could be desired, being of strong, vigorous but dwarf habit, forming symmetrical compact plants about 3 feet high.

\$1.50 each. Stock limited.

New Yellow Spotted Canna, "Comte de Bouchaud."

This variety is identical in color with that fine variety, Florence Vaughan, from which it differs only in the size of the flowers, which are fully one-sixth larger; color, rich bright golden yellow, spotted with bright red; this is undoubtedly the finest dark yellow spotted variety yet introduced; grows about 4½ feet high.

Price 50 cts. each.

New Light Yellow Spotted Canna, "Madame Montefiore."

This is another grand variety on the same style as Florence Vaughan, but of a much lighter shade of yellow, more on the style of Capt. Suzzoni. This variety when planted in masses will give, even at a short distance, a clear yellow effect, while Florence Vaughan and Comte de Bouchaud, on account of the deep yellow color and heavy spots, under the same conditions have more of an orange appearance. The flowers, which are of a fine clear light yellow spotted with red, are fully as large as Comte de Bouchaud, while its habit of growth is also similar to that variety. This is undoubtedly the finest Canna yet introduced for planting where a yellow effect is desired, and for this purpose is almost as valuable as a yellow without a spot would be.

Price 50 cents each.

New Crimson Canna, "Ami Pichon."

This may be called an improvement on Explorateur Crampbel, to which it is similar in style of flower and color, though brighter in its markings than that standard variety. The flowers are of large size, of a bright crimson with very deep crimson markings, the habit of the plant is strong, of symmetrical growth, about 5 feet high, with rich deep green foliage.

Price 50 cents each.

New Crimson Canna, "Madame Molin."

This is undoubtedly the finest crimson variety yet introduced; the habit of the plant is all that could be desired, it forming strong bushy symmetrical plants about three feet high, with luxuriant heavy foliage of a rich dark green. The flowers, which are of large size and of a most intense brilliant crimson, are produced in very large heavy heads. The entire habit of the plant, together with its bright, rich color, will place it in the front rank among the high colored varieties.

Price 50 cents each.

New Rose-Colored Canna, "Rose Unique."

This variety is not up to the present standard in size of flowers, but is so distinct in color, differing from all others, that we consider it well worthy of trial. It is the nearest approach to a rose color yet introduced, of remarkably vigorous yet dwarf growth, attaining a height of 3½ feet; the flowers are produced in large heads and present a unique appearance. Price 30 cents each.

New Bronzed-Foliaged Canna, with Orange-Colored Flowers, "Admiral Avellan."

In our trials the past summer we considered this the most desirable dark foliaged variety in our collection. The flowers, while not as large as some of the latest introductions, are of good size, with heavy strong petals which open out evenly, forming a clean pretty flower; these are arranged sufficiently far apart on the stems to show up each individual flower; it is of a rich orange scarlet, having a luminous rich appearance. The habit of the plant is erect, growing about 5 feet high and always forming fine symmetrical plants. Price 50 cents each.

We will furnish one each of the eight new varieties, including Queen Charlotte, for \$4.50.

One Hundred Thousand Dwarf French Cannas.

TWELVE STANDARD VARIETIES.

These varieties are now all supplied in good sound pieces just starting out of moss-bed. After May the first we will furnish well established plants, pot grown, at same prices, and we are prepared to make special low quotations to parties intending to use large quantities.

Alphonse Bouvier. A remarkably luxuriant grower, in rich ground attaining a height of 6 to 7 feet. In color it is of a rich, brilliant crimson almost approaching scarlet when it first opens, changing to a deep dazzling crimson as the flowers fully develop. Foliage, rich deep green. Per doz. \$1.00; per 100 \$8.00.

Charles Henderson. A grand variety introduced two years ago of a fine crimson color that has become very popular. While it is not quite as rich in color as Alphonse Bouvier, its habit of growth is much more compact and uniform, rarely exceeding 3½ feet in height, which makes it a desirable companion to such varieties as Florence Vaughan and Madame Crozy. Per doz. \$1.00; per 100 \$8.00.

Denil de St. Grevy. A grand acquisition; flowers of good size with well-rounded heavy petals of the most intense rich orange scarlet: foliage bronzy

MADAME MONTEFIORE.

purple; very effective. 4½ feet. Per doz. \$1.00; per 100 \$8.00.

Madame Crozy. Flowers dazzling scarlet bordered with golden yellow; plant of vigorous growth yet dwarf in habit, rarely exceeding four feet in height. Foliage massive, of a rich cheerful green. The flowers are produced on large branching stems which are closely set with bloom. It is remarkably free flowering and can be had in bloom the year around. It is to-day the most popular Canna in cultivation. Per doz. \$1.00; per 100 \$8.00.

Maurice Mussy. Rich satiny vermilion scarlet, of large size, with broad rounded petals of good substance; the plant is vigorous and very uniform in its growth, attaining a height of about 4 feet. Per doz. \$1.00; per 100 \$8.00.

Mrs. Sarah Hill. Flowers of a rich carmine, of good size, foliage green 3½ feet high. Per doz. \$1.00; per 100 \$8.00.

CHRYSANTHEMUMS.

VARIETIES OF SPECIAL MERIT.

PHILADELPHIA.

NEW

Chrysanthemum Philadelphia.

This is undoubtedly the greatest acquisition in Chrysanthemums for many years; it is an entirely new type in coloring and in form of petal or floret, and in the general contour of the flower, though it is very nearly globular as a whole. The formation of its florets and their disposition makes it gracefully globular in form; its color is white, illuminated with lemon yellow, giving it light and life never before seen in a Chrysanthemum.

It was awarded the highest honors by the American Chrysanthemum Society, and was also the centre of attraction at the fall Chrysanthemum Shows in the following cities, at all of which it was shown at the same time: Boston, Baltimore, Chicago, Cincinnati, Indianapolis, New York, Philadelphia, St. Louis and London, England.

50 cents each; \$6.00 per dozen; \$35.00 per 100.

Caryopteris Mastacanthus.

(BLUE SPIRÆA.)

This is one of the most brilliant novelties from China that we have to offer this season, and, without doubt, one of the greatest acquisitions. With us it has bloomed ever since May, even in 2-inch pots, and at this date the plants have formed specimens 2 to 3 feet high and wide, which are still a mass of flowers of the most pleasing, rich lavender blue, a color so rare among flowers. It grows more readily than a geranium, even in a dry spot, and it is sure to become a favorite as a cut flower, as a pot plant and for the garden. Plants potted and brought into the house will bloom profusely throughout the winter months, and give an abundance of graceful flowering branches.

\$1.50 per doz.; \$10.00 per 100.

Four Grand New Dahlias.

Fern Leaved Beauty.

(No. 1.) This is another gem of Mr. Bassett's, of the same type, but distinct from American Flag. It has been called Fern Leaved Beauty on account of its very distinct foliage, which is finely cut, like that of a strong-growing Fern. (See illustration.)

The habit of the plant is strong, but dwarf, growing about two feet high, branching near the ground and forming a compact mass of foliage, which makes it a fine ornamental plant, even without flowers. The flowers, which are produced on long stems, well above the foliage, are of medium size, with petals quilled or shell-like, regularly arranged, but standing out from each other, giving the flower a graceful elegance and freedom from stiff formality. Color, creamy white, with petals

heavily bordered with dark crimson, which gradually diminishes at the points of the

American Flag.

A most distinct show variety that originated with Mr. W. F. Bassett, who is one of the most enthusiastic local growers of this favorite flower. The flowers are of medium size, measuring about three inches in diameter, petals quilled in the centre, but opening shell-formed when fully expanded; color pure white with a prominent border of brilliant cherry red on each side of the petals and occasionally a centre stripe of the same color. Unlike many other varieties described as pure white, the white portions of this are really snow white, while the markings are of the most intense cherry red. Strong plants, ready now, 35 cents each.

Blanche Keith.

Another grand Cactus Dahlia and an improvement upon all the yellows up to date. The petals are long and twisted, very full and evenly arranged, and of a rich uniform yellow throughout. It is also remarkably free flowering, with the flowers standing well above the foliage and the plant not growing over three feet in height; a great advantage, seeing that so many varieties of this section grow to a great height, rendering them unsuitable for many places. This variety has also received many certificates and medals. Good plants ready now, 35 cts. each.

outer petals, causing a gradual shading off of color from the centre to the edges. Strong plants, ready now, 35 cents each.

Mrs. Peart.

(No. 2.) This is the most distinct Cactus Dahlia yet offered and the only variety worthy of the name Cactus; it is the first real white Cactus Dahlia ever raised and a marvelous improvement upon every variety in cultivation. It stands out in bold relief from all others and is the admiration of every one who has seen it. The plant is of medium growth, exceedingly floriferous, the flowers standing clear above the foliage; these are of medium size, of the purest white, with a slight tinge of lemon in the centre when it first opens; this dies off as the flower fully expands. This illustration gives a better idea of its form than any description that we can give. It is of English origin and has been awarded numerous certificates and medals. Good plants, ready now, 50 cents each.

Regarding stock purchased from you, I would say, it is the best that ever graced our place, and you may expect a continuance of our patronage. CHAS. P. GUELPH, Brockport, N. Y.

The set of four distinct and novel Dahlias for \$1.40; ready now.

DAHLIAS.**NEW CACTUS DAHLIA,
"NYMPHÆ."**

(The Pink Water-Lily Dahlia.)

An entirely distinct and novel variety of perfect shape, producing flowers of large size, with heavy broad petals, those of the centre being somewhat cupped or incurved. The color is a clear, distinct, light-shrimp pink, shading slightly darker towards the outer petals, a color difficult to describe and which is rare in all plants. This peculiar color and its form have suggested the name, Water-Lily Dahlia.

Strong roots 25 cts. each ; \$2.50 per dozen.

New Cut-Leaved Single Dahlia.**ANNIE BARILLET.**

A beautiful new variety with very rich scarlet, crimson flowers of the most perfect shape, with a deep purplish maroon foliage, contrasting finely with other light-leaved varieties. 20 cents each ; \$2.00 per dozen.

TWELVE BEST CACTUS DAHLIAS.

Cochineal. Brilliant crimson.

Formosissima Picta. Orange color with bright scarlet stripes ; a distinct and taking flower.

Harry Freeman. A most beautiful glistening snow-white, of good form and substance.

Honorita. Distinct from all other sorts ; a peculiar shade of amber.

John Bragg. Color of the richest black maroon ; flowers of good size, raised well above the foliage.

Mrs. Hawkins. Of close, neat habit ; rich sulphur-yellow, shading lighter toward the tips and slightly tinted red ; a lovely flower.

Mrs. Glasse. Crimson maroon, shading to scarlet towards the centre ; very dwarf.

Miss Barry. Deep rosy lake ; shade new in this type of Dahlia.

Pantheria. Rich reddish salmon, peculiar and striking.

Professor Baldwin. Bright orange scarlet

Robert Maher. A rich golden yellow ; the best of its type.

Sidney Hollings. Rich deep purple maroon ; one of the darkest in cultivation.

Dry roots 15 cents each ; set of 12 for \$1.50 ; \$12.00 per 100.

Young plants \$1.00 per dozen ; \$7.00 per 100.

SIX FINE SINGLE DAHLIAS.

Empress. Pure white, embellished with a yellow rayed centre.

Eclipse. Most perfect flowers, slightly recurved, of a pleasing rosy mauve and salmon, having a distinct band around the disc, which is of rich crimson, rendering it very attractive.

Isaac Pitman. One of the finest striped varieties and remarkably constant. The flowers are large, of fine form, lilac, conspicuously striped with crimson and maroon.

Kate. A bright orange maroon of a shade difficult to describe, and one of the most effective of the high colored sorts.

Maude. Pure white, each petal distinctly margined with a broad band of maroon ; a remarkable blending of colors, and extremely effective.

Miss Ramsbottom. A most lovely pink shaded cerise.

Dry roots 15 cts. each ; set of 6 for 75 cts. ; \$12.00 per 100. Young plants \$1.00 per doz. ; \$7.00 per 100.

Eulalia Gracillima Univittata.

We have a large stock of these useful hardy ornamental grasses and can furnish of liberal sizes at 75 cts., \$1.00, \$2.00 and \$3.00 per doz.; \$6.00, \$8.00, \$15.00 and \$20.00 per 100, according to size of plant. Extra large undivided two year old clumps, \$30.00 per 100.

Fuchsia Little Beauty.

We consider this one of the best plants in this line introduced for many years, and it cannot be too highly recommended. As a market plant it is a perfect gem, being of a dwarf but free growing habit, flowering early in the season in small plants when only two inches high and naturally forming good shaped plants without stopping or pinching. As many as one hundred and fifty flowers have been counted on a plant in a four inch pot at one time; they are of fair size, being about 1½ inches long, with bright red tube and petals and purple corolla.

We have made arrangements with the introducer to send the plant out at his regular prices, which is \$1.50 per dozen; \$10.00 per 100, for strong thrifty 2-inch pot plants.

Gaillardia Grandiflora.

This is undoubtedly one of the finest of hardy Perennials. The flowers are large, very numerous, produced on long stems and excellent for cutting, and of the most gorgeous coloring. The centre is dark-red brown, while the petals are variously marked with rings of brilliant scarlet crimson, orange and vermilion, and often a combination of all these colors in one flower. It delights in a rather poor, light soil, and blooms in the greatest profusion from June to November.

Strong one year old clumps, \$1.25 per dozen; \$10.00 per 100. 2½ inch pots, that will flower freely this season, 60 cents per dozen, \$4.00 per 100.

GLOXINIA.

We have been making a specialty of the Gloxinia for many years, and grow many thousands. The bulbs are in an unusually fine condition, large and well matured, and are all of the Crassifolia type of foliage. The strains we offer cannot be surpassed, either in size of flower, richness of coloring or elegance of shape. Finest mixed varieties.

Hardy English Ivies.

These are now used largely throughout the eastern cities for covering graves. We supply annually many thousands for this purpose, and have prepared an extra large stock of strong plants in 4 inch pots, 3 to 4 runners, 2 to 3 feet long. \$1.00 per doz.; \$10.00 per 100.

Helianthus Multiflorus, fl. pl.

Double Hardy Sunflower.

An extremely useful hardy plant; bears profusely large double flowers of a bright yellow color, which remain in perfection a long time. Every florist should grow this sort largely.

\$1.00 per doz.; \$8.00 per 100.

Helianthus Maximilliana

A most useful single flowering variety especially valuable for cutting, it continuing to bloom very late in the fall. The flowers, which are of medium size, are produced in long sprays in such a manner as to make them of most useful form for large decorations.

\$1.00 per doz.; \$8.00 per 100.

Helianthus Rigidus.

One of the best for summer cutting, flowers large bright golden yellow with lilac disc, a rapid grower, attaining a height of about three feet, and a very attractive free flowering variety.

Hypericum

Moserianum.

The New St. John's Wort.

We take pleasure in calling attention to this beautiful plant, which has been universally admired and is acknowledged to be one of the very best herbaceous plants of recent introduction. The habit of the plant is free and graceful; it produces long, slender, much-branched stems, leafy toward the base and all drooping toward the ends, apparently from the weight of the flowers and buds, although the flowers face so that none of their beauty is lost. It is marvellously free flowering, of large size, measuring from 2 to 2½ inches in diameter, in color a rich golden yellow, which is rendered still more effective

We have succeeded in procuring a fine stock of this most beautiful of all the Trumpet Lilies. It has immense funnel or trumpet shaped flowers of heavy texture and of elegant color, which is of a pure white shaded with chocolate on the outside, and delicately tinged with yellow on the inside. It has always been rare and offered only at very high prices. We offer fine strong bulbs at 60 cents each.

NEW LYCHNIS,

Plenissima Semperflorens.

One of the greatest additions to our list of hardy perennials, beginning to flower early in the spring and continuing throughout the entire summer. The flower is of a beautiful tender rose-color, and is produced in long, bushy spikes. One of its greatest advantages is its easy forcing qualities in an ordinary green-house or cool conservatory, where it will produce from October to April, with ordinary care, hundreds of flowers. \$2.00 per doz.; \$15.00 per 100.

Improved Dwarf Rocky Mountain Cherry.

This rare cherry is a native of the Rocky Mountains; for preserves or to eat out of hand it has no equal in the line of pitted fruits. The plants are of bushy habit, growing from two to four feet high. It is entirely hardy and most desirable as an ornamental plant for the garden or lawn.

LYCHNIS, PLENISSIMA SEMPERFLORENS.

Manettia Cordifolia.

One of the most showy and attractive summer vines, and entirely distinct from the well-known Manettia vine. It is of rapid growth, with deep green foliage, and a wonderful profusion of crimson scarlet tubular flowers one and a half inches long. These are borne on longer stems than the ordinary Manettia, and when grown on a trellis, as shown in the illustration, all the flowers grow outward so that the whole surface is a mass of flowering crimson scarlet of a most pleasing shade, and in sharp contrast to the foliage. Owing to the length of the stems and graceful form of the flowers, the slightest breeze gives them a graceful wavy motion, which adds wonderfully to their attractiveness. As a summer climber, in a position where a graceful vine is required, it has no equal, beginning to flower early in July and continuing one mass of bloom until cut down by severe frosts.

Two Grand Pelargoniums.

The two varieties of Pelargoniums, or Lady Washington Geraniums, listed below, are the finest that have ever come to our notice. The plants are of strong vigorous growth, and very free flowering, while the size and shape of the flowers are all that could be desired.

Madame Thibaut. White, richly blotched and marked with rose, the upper petals marked with crimson maroon with large white centre; the trusses and individual flowers are of immense size, while the petals are heavily ruffled, giving it a well defined double appearance.

Mrs. Robert Standiford. A sport of the above variety with which it is identical in every way, except in color, which is a pure glistening snow white; a grand acquisition.

20 cents each; \$2.00 per dozen.

"HER MAJESTY" PINK.

New Hardy Garden Pink. "HER MAJESTY."

This variety is a grand improvement on the popular variety known as "Snow" or "Mrs. Sinkins," to which it is superior in size of flower and freedom of bloom. The flowers which are of large size, similar to a Carnation, and of the purest white color and very fragrant, are borne on stout, erect stems, 12 inches long. It is perfectly hardy, and will winter in the open border without protection; or may be grown in cold frames for early forcing.

Strong 2½ inch pots, 60 cts. per doz.; \$4.00 per 100.

Very strong one year old clumps, \$1.00 per doz.; \$8.00 per 100.

Rhododendrons.

The varieties we offer are all of the hardiest kinds, such as from experience are known to succeed in our climate. We offer three sizes, and all are set with buds.

First size, 18 to 24 inches high, 10 to 15 buds, \$100.00 per 100.

Second size, 15 to 18 inches high, 8 to 12 buds, \$75.00 per 100.

Third size, 15 inches high, 6 to 10 buds, \$60.00 per 100.

Rhynchospermum Jasminoides.

A beautiful greenhouse plant and a most valuable plant for planting against the pillars in a cool greenhouse, where it will grow luxuriantly, and produce its masses of waxy white Jasmine-like flowers in the greatest profusion, about Easter. They are most valuable in making up bouquets or cut flower designs, and the plants occupy but little valuable space.

Extra strong 5 in. pots, 50 cts. each; \$5.00 per doz.

Strobilanthes Dyerianus.

A new and attractive plant now offered for the first time, suitable for growing in pots for house decoration and for bedding out in the summer; it forms a compact bush 18 inches high with leaves 6 to 9 inches long and 3 to 4 inches wide, of the most intense metallic purple color, shading into light rose with a light green margin, a combination unapproached by any other plant. The flowers are of a violet blue and very pretty. It is said to make an excellent bedding plant, having been planted out at the gardens of the White House the past summer, where it attracted considerable notice.

2½ inch pots, 20 cents each; \$2.00 per dozen.

STROBILANTHES DYERIANUS.

Schubertia Grandiflora.

An exceedingly pretty climber, which succeeds admirably in the open ground during the summer months, producing the entire summer, until cut down by severe frost, clusters of large funnel-shaped fleshy-white flowers of delightful fragrance, not unlike *Stephanotis Floribunda* in appearance.

30 cents each ; \$3.00 per dozen.

Swainsonia Galegifolia Alba.

A most desirable ever-blooming plant, with pure white flowers, produced in sprays of from 12 to 20 flowers each, the individual blooms resembling a Sweet Pea.

It is of very easy culture, succeeding best in the temperature of a Carnation house, and will be found useful as a cut bloom for local or home trade ; while as a pot plant for selling either in the market in the spring, or for window and conservatory decoration in the winter, it is certain to become very popular.

We have a large stock and are in a position to offer it at a low price. 75 cts. per doz. ; \$6.00 per 100.

Tritoma Grandiflora.

(Flame Flower or Red-Hot Poker.)

A splendid summer and autumn flowering plant, with stately flower scapes and magnificent terminal dense spikes of rich orange-red tubular flowers, known from its glowing colors as the "Red-Hot Poker Plant ;" effective among shrubbery.

DAVALLIA STRICTA.

Scarce and Special Varieties of FERNS.

Alsophilla Australis.

A most useful tree fern that is always scarce, a variety that grows into specimen plants quickly, and that will succeed under all conditions as long as it is plentifully supplied with water.

We offer a fine stock of 2½ inch pots at \$1.00 per doz.; \$8.00 per 100.

Adiantum Farleyense.

A fine stock of this most beautiful of all the maiden-hair, in excellent condition for growing on. Strong 3 inch pots, \$3.50 per doz.; \$25.00 per 100. 4 inch pots, 50 cts. each; \$5.00 per dozen.

Cibotium Regale.

Another choice tree fern that is difficult to obtain, one of the very finest to grow on into specimen plants. 3 inch pots, 50 cts. each; \$5.00 per doz.

Doryopteris Nobilis.

We have succeeded in growing a very fine lot of this beautiful variegated fern which enables us to offer it at a much reduced price.

We have fine 2½ inch pots, \$1.50 per doz.; \$10.00 per 100.

Pteris Nobilis.

This variety, introduced some six years since, is always scarce in its true form, is one of the prettiest of the crested forms of Pteris Cretica.

We offer a limited stock of 2½ inch pots at \$1.50 per doz. 3 inch pots, \$2.00 per doz.; \$15.00 per 100.

Pteris Cretica Mayii.

A beautiful dwarf-crested or tasseled form of Pteris Cretica Albo-lineata, showing the same variegation as that variety, but of much dwarfier habit.

2½ inch pots, \$1.00 per doz.; \$8.00 per 100.
3 “ “ 2.50 “ 20.00 “

Pteris Tremula Smithiana.

A new crested form of Pteris Tremula, possessing the same vigorous habit and free growth as the parent plant, but is much dwarfier.

2½ inch pots, \$1.50 per doz.; \$10.00 per 100.
3 “ “ 2.50 “ 20.00 “

It will be noticed that the prices of many of the popular varieties of Ferns have been greatly reduced. We have dropped the dozen, and listed only at hundred rates; not less than five of any one variety will be supplied at these rates.

We have at all times in stock a fine lot of Ferns in 3-inch pots, suitable for Fern dishes; these can be supplied, according to variety, at \$6.00 to \$8.00 per 100, or \$50.00 to \$70.00 per 1000.

As the stock of Ferns in three inch pots changes very quickly during the winter season, purchasers should, as far as possible, leave selections to us, or when special varieties are mentioned we should be informed if substitution of other sorts is agreeable.

The plants ordered of you the latter part of last month came through safely by express, and were very satisfactory. Your method of packing plants is truly scientific, being far superior to any I have seen heretofore.

R. C. TAYLOR, Supt.,
Alexandria National Cemetery,
Pineville, La.

March 16, 1895.

It is needless to say that the lot of plants you sent me last week arrived in good condition and that everything in the order was satisfactory, as usual. It is a pleasure to do business with you, because it is your purpose to send out everything in good shape and nothing but good stock.
March 18, 1895. F. E. DELLENBAUGH, Cleveland, O.

New Climbing Rose, Crimson Rambler.

Undoubtedly the greatest acquisition in a climbing rose introduced for many years.

It is of vigorous growth, making shoots from 8 to 10 feet in height during a season, and is consequently a most desirable climbing variety; when pegged down or grown as a bush, marvellous heads of bloom are the result. It is exceedingly hardy. As a pot-plant it is unequalled for decorative purposes. The flowers with which the plant is covered in the spring are produced in large trusses of pyramidal form and of the brightest crimson color. The blooms remain on the plant for a great length of time without losing their brightness. The foliage is also retained to a great extent during the winter, making the plant almost an evergreen. It is said to be extremely hardy, having withstood the test in exposed situations of two very severe winters in England. Price, 2½ inch, \$2.00 per dozen; \$15.00 per 100.

New Ever-Blooming Roses for 1895.

ALBERTINE BORGUET. Large, almost full flowers, beautifully formed. Color yellow mauve with canary centre, sometimes shaded with light green. A constant bloomer and very fragrant. 20 cents each; \$2.00 per dozen.

COMTESSE DUSY. Moderate and branching in growth, with large, full, pure white flowers of handsome, imbricated form. The beautiful buds are long and finely moulded. 20 cts. each; \$2.00 per doz.

CORIENNE. A new English rose of great promise. It has been awarded the gold medal in London and several certificates of merit. The color is a beautiful flesh, shaded with rose and suffused with tawny copper. Flowers of large size, excellent shape and freely produced. 20 cents each; \$2.00 per dozen.

GRAZIELLA. A strong growing variety, with very large, exceedingly full flowers, always opening well. Color cream white, tinted with pink; brilliant satiny petals. This lovely sort has received several silver medals in France. 30 cents each; \$3.00 per dozen.

MADAME CARNOT. A new French variety that will be useful because of its beautiful, long, pointed buds, which can be cut with very long stems. The flowers are white, shading to pale sulphur-yellow; very large and nearly full. 20 cents each; \$2.00 per dozen.

MADAME EDWARD HELFENBEIN. This lovely Rose is one of the best Continental varieties for 1895. It is of strong, vigorous growth, free-flowering habit, and unique in color. The buds are globular, with petals of good substance; the full flower is double and the color is chamois-apricot-yellow, shaded with carmine rose, veined in varying depth. 20 cts. each; \$2.00 per doz.

MADAME JOS. COMBET. A Hybrid Tea, of very strong growth. The flowers are produced singly on exceptionally long, thornless stems, and are large, full, and perfectly imbricated. Beautiful cream-white, tinted rose, with light yellow centre. This lovely sort received the silver medal in France. 30 cts. each; \$3.00 per doz.

NEW ROSE, CORIENNE.

PERLE DE FEU. A perfect little gem. The flowers are of only medium size, but the buds are perfectly formed, and the color is so intense that its name, "The Fire Pearl," is a better description than any we can give. French Rosarians describe it as poppy-red, shaded vermilion and nankeen yellow, with chamois tints on the reflex of petals. 20 cents each; \$2.00 per dozen.

YVONNE GRAVIER. Flowers of medium size, almost double. Color a beautiful cream, shading at the centre to canary yellow; reverse of petals light rose. The combination of colors gives a delicate freshness to the flowers that is very attractive. 20 cents each; \$2.00 per dozen.

GERMAINE TROCHON. A new climbing Hybrid Tea of very vigorous growth. The flowers are large and globular; color, light salmon, with nankeen orange and yellow centres. A valuable climbing Rose for the South. 20 cents each; \$2.00 per dozen.

LA NIEGE. A new Bengal or Daily Rose. We have only a few Roses of this class, and this lovely variety is a welcome addition. The flowers are pure white, medium in size, very double, and so freely produced that a bed of it will be in bloom the entire summer. The form of the full flower is quite distinct; the centre petals are formed like an Anemone, while the outer ones are reflexed. 20 cts each; \$2.00 per doz.

HIPPOLYTE BARREAU. Distinguished among the crimson roses of the year for its striking shape and contour, which are as beautiful as they are unusual. In the buds, which are solid and beautifully moulded, the petals close upon each other in folds of deep carmine crimson, shaded with velvety maroon; in the open flower they are regularly and elegantly reflexed almost to the centre. 20 cts. each; \$2.00 per doz.

MRS. W. C. WHITNEY. A new American seedling of the Hybrid Tea race. The buds are large, long, full and pointed; the flowers are full and delightfully sweet. Color a clear, deep, even pink. The plant is robust and free blooming. 20 cents each; \$2.00 per dozen.
